

Give up our Fight for a Conservative America????
Not On Our Watch - Not While our Constitutional Rights Hang in the Balance!

Hart County Republican Party Newsletter
Volume 8 December 19, 2009

Chairman's Notes:

Health care bill is still being pushed, crammed and shoved down the throats of Americans. Our president is still determined to pass the bill whether it is good for the county—He just wants to please the liberals who voted for him and who apparently have funded his adventures for years. Georgia is blessed to have Paul Broun and Jim Butterworth working hard to keep the government at bay and keep Georgia free to deal with our own problems the way we see best. Chairman finds it hard to swallow that members of the Senate and Congress would risk losing their appointments simply because they don't have the backbone to say to the President. The battle is definitely NOT over - - We who are Conservatives must not slow down or back off on our commitment to keep America the strong nation that it has always been - always there to protect and take care of our constitutional rights. Now is the time to contact your representatives and voice your concerns.

History has a way of waking us up to the reality of bad things happening when we refuse to get involved in our own destiny. It would take volumes to recite all the quotes from great leaders of the past who have warned us of too much government, and not enough "For the people, by the people".

"Any people that would give up liberty for a little temporary safety deserves neither liberty nor safety."

Benjamin Franklin

"Every violation of truth is only a sort of suicide in the liar, & a stab at the health of human society."

Ralph Waldo Emerson".

"The Constitution is not an instrument for the government to restrain the people, it is an instrument for the people to restrain the government."

Patrick Henry

This was pertinent in 1778 and will be pertinent Tomorrow. "Those who fail to learn from history are doomed to repeat it." (Sir Winston Churchill). Why can't we learn from our mistakes?

I urge you to invite your friends, family, co-workers and anyone who can to attend our meetings. We, the people, need to know what's going on and how we can control the government and not the other way around. *"If taxes are laid upon us without our having a legal representation where they are laid, we are reduced from the character of free subjects to the state of tributary slaves."* Samuel Adams. It's a shame that so many are under slavery once again - this time to the government.
