Not On Our Watch - Not While our Constitutional Rights Hang in the Balance!

Hart County Republican Party Newsletter
Volume 2 February 20, 2010

Chairman's Notes:

It's another month closer to the elections of 2010. This is a very important year and we need to work towards a stronger more conservative Republican government. Do you really know your candidates? It is imperative that each of us know what the candidates stand for today. Ask yourself, "How can I help?" If you're honest with yourself, you will realize that it takes getting up and getting out to ensure that the right one for the country gets elected.

History is our greatest learning tool. For if we do not learn from the mistakes of our ancestors, we will make the same mistakes too. Great leaders of the past warned us of too much government, and not enough "For the people, by the people". Take for example the following patriots:

Famous Quotes Section:

House Republican Whip Eric Cantor (R-Va.) says the matter of Republicans saying "NO" goes beyond mere partisanship. "People in this country are very dissatisfied with the direction that this administration is taking this country," he said. "We're not voting no for political expediency. We've got our principles, and we're going to stand up and defend those."

My belief has always been that wherever in this land any individual's constitutional rights are being unjustly denied, it is the obligation of the federal government—at point of bayonet if necessary—to restore that individual's constitutional rights - Ronald Reagan, Press conference 17 May 83

We, the people, are the rightful masters of both congress and the courts - not to overthrow the constitution, but to overthrow men who pervert the constitution. - Abe Lincoln

"No power on earth has the right to take our property without our consent" John Jay -1st Chief Justice of the USA

Please invite your friends, family, and co-workers to attend our meetings. **We, the people**, need to know what's going on and how we can control the government and not the other way around.
