

Give up our Fight for a Conservative America????
Not On Our Watch - Not While our Constitutional Rights Hang in the Balance!

Chairman's Notes:

Another month has gone by with the President making an unprecedented decision to grant terrorists the same rights under our law as American citizens; Democrat Congress still filled with resentment and determined to pass the health care bill with no real regard for their constituents, and no decision on sending troops or not. We Conservatives must not slow down or back off on our commitment to keep America the strong nation that it has always been - always there to protect and take care of our constitutional rights. Now is the time to contact your representatives and voice your concerns.

History has a way of waking us up to the reality of bad things happening when we refuse to get involved in our own destiny. It would take volumes to recite all the quotes from great leaders of the past who have warned us of too much government, and not enough "For the people, by the people". I quoted PM Margaret Thatcher as our present voice and Tacitus, A Roman of great renown for our voice from the past.

"The trouble with Socialism is, sooner or later you run out of other people's money."

Margaret Thatcher, former British Prime Minister.

"The more corrupt the state, the more it legislates."

"It is the rare fortune of these days that a man can think what he likes and say what he thinks."

Tacitus, A Roman Historian, Senator, Consul, Governor AD 56-120

This was pertinent yesterday, is today and will be Tomorrow. Why can't we learn from our mistakes?

In the coming months we will have 2-3 candidates or elected officials speak at our meetings. I urge you to invite your friends, family, co-workers and anyone who will attend our meetings. We, the people, need to know what's going on and how we can control the government and not the other way around. George Bernard Shaw once said, "A Government which robs Peter to pay Paul can always depend on the support of Paul." It's a shame that so many are under slavery once again - this time to the government. As long as the Government decides what people need and dole out in small amounts, never enough for them to stand on their own feet and succeed, they will always have to depend on their benefactor—Uncle Sam.
