Notes from the Chairman:

ATTENTION: November 2 is before us! Our candidates have been picked and whether they are the ones we wanted, it is time to UNITE behind them and make sure they are elected across the state. We must break the stronghold that the democrats have in the House and Senate. Laws are being passed, bills are being pushed through and corruption is rampant in Washington and throughout this great country. Millions have, and millions are still trying to come to our shores. Rest assured that America is still an "I dreamed a dream" land. Our job, as loyal citizens, is to preserve the dignity and honor of America so the world will know that we are the most generous, kindest, loving and honorable county in the world. But we must make the world aware that we will not give up the principles that our country was founded upon; nor are we willing to support those who don't want to support themselves.

We only have to look at our founding Fathers to see what needs to be done. Times have not changed—there are still people in power who want to have their way no matter what it does to the country. Politicians should never put themselves first: governments should put people first and all of us should put our country first. Thomas Jefferson, our 3rd President said it very clearly: *When a man assumes a public trust he should consider himself a public property.* How often do we have to repeat this for it to sink in?

Please invite your friends, family, and co-workers to vote. Each of us must be active in the protection of Constitutional rights. *We, the people,* need to know what's going on and how we can control the government and not have the government control us.

The preservation of this county is a very important task. It is serious business, because it impacts on so many lives. As we go about our task of getting rid of the riff-raff within our government, let us not get so stressed that we lose sight of our goal. Stress can wear us out and therefore defeat us. Humor can be, and should be, part of life. Will Rogers, American Humorist and Actor, had a wonderful way with words. His opinion of running for office is summed up in this statement: *Politics has become so expensive that it takes a lot of money even to be defeated.*— *So Please donate to the Republican Party whenever you have the opportunity.*
